In the United States Patent and Trademark Office

In re Application of: Page, J. et al

Serial Number: 10/656,376

Filed: 09/08/03

Date: December 15, 2003

Honorable Commissioner of Patents and Trademarks
Washington, D.C. 20231

Transmittal and Preliminary Amendment

Sir:

   Attached hereto is a response to Notice of Omitted Items, mailed 12/01/2003, in connection with the above identified application. Please enter this preliminary amendment to correct a cut-and-paste error which made appear references not intended as part of the application.

Respectfully submitted,

Joseph E. Page
#35,311

Preliminarly Amendment

In the section entitled: "BRIEF DESCRIPTION OF THE DRAWING FIGURES" an error was made. The following text should replace the originally submitted text to omit references to drawings not included in the application.

Figure 1 is a sketch showing the relation between a wristwatch and a wearer;

Figure 2 illustrates important elements of a wearable apparatus in the form of a wristwatch;

Figure 3 is a side view of a wristwatch emphasizing the device package;

Figure 4 includes a block diagram of major watch elements which may be incorporated within a package such as a watch case;

Figure 5 shows a device of these inventions in relation with tissue of a user.

Figure 6 illustrates a user interface display operable for presenting data in a user friendly format.

The originally submitted text, which is in error and should be omitted, reads as follows:

Figure 1 is a sketch showing the relation between a wristwatch and a wearer;

Figure 2 illustrates important elements of a wearable apparatus in the form of a wristwatch;

Figure 3 presents a face view of a wristwatch;

Figure 4 is a side view of a similar wristwatch emphasizing the device package;

Figure 5 includes a block diagram of major watch elements which may be incorporated within a package such as a watch case;

Figure 6 shows a device of these inventions in relation with tissue of a user.

Figure 7 illustrates a user interface display operable for presenting data in a user friendly format.
